

Canvas Cleaner

Technical Data Sheet

Applications:

Canvas Cleaner is specifically developed for cleaning canvas, cotton, linen, etc surfaces. Atmospheric pollution penetrates the fibres of the canvas and also forms a breeding ground in which algae and mould can grow.

Canvas Cleaner loosens the contamination deep in the pores without damaging the surface. The product leaves no residue, as often happens when using ordinary soaps. After cleaning, the surface can be perfectly preserved using Waterproofing.

Instructions for use:

1. Protect surfaces that cannot be treated.
2. First clean the surface to be treated with clean water and a firm soft brush.
3. Dilute Canvas Cleaner in a ratio of 1:10 using clean water.
4. Then apply the product to the surface to be treated and distribute it with a brush so the entire surface is covered.
5. Then allow the product to act for approximately 10 - 20 minutes (determine by experiment).
6. Now thoroughly rinse the surface with clean water and use the brush if necessary. **Rinse thoroughly.**

Product usage:

Light to moderate soiling	Approx 100 m2 per litre
Moderate to heavy soiling	Approx 90 m2 per litre
Heavy soiling	Approx 80 m2 per litre

The above usage is indicative and should be determined by first applying to a small test area.

Considerations during application:

Always place a reference test on the to be treated surfaces in order to determine both adhesion and the technical and aesthetic result.

Specifications:

Appearance:	Liquid
Color:	Blue
Scent:	Characteristic
pH:	8,2 (10%)
Degradability:	Biologically optimal
Denisty:	1035 g/cm3

Hazard symbols and H & P statements (CLP):

GHS05
Danger

H-Phrases: H314 - Causes severe skin burns and eye damage.

P-Phrases: P280 - Wear protective gloves, protective clothing, eye protection.

P301+P330+P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTER, a doctor.

P321 - Specific treatment (see supplemental first aid instruction on this label).

Packaging and industrial waste:

Treat as industrial waste in accordance with the applicable regulations. Collect process water in accordance with the applicable local regulations.

This information is based on laboratory tests and practical experience. **For application and use, please adhere strictly to the descriptions in the technical product information sheets and MSDS sheets.** We do not accept any liability for any advice provided by us. The application, use and handling of the products are the sole responsibility of the user. All our documents and texts have been prepared to the best of our knowledge, language and translation errors are expressly excluded and can never lead to any liability.

Canvas Cleaner is part of the Impressed Pro® Marine product range, developed to clean and preserve all types of all common surfaces and materials on and around boats and/or ships. For specific questions and applications, as well as for the up-to-date TDS and MSDS sheets, please visit our website www.impressedpro.com or contact your distributor and / or technical advisor.
